## You Need Only One.

**When selecting an acquisitions agent or changing from your current agent, what are your needs and who should you be looking for?**

Does your library need . . . ?

- ☐ 1. Economical programs specially designed to aid library budgets.
- ☐ 2. Complete U.S. and European sales/service staffs and fulfillment centers.
- ☐ 3. Periodicals, continuations, and monographs, domestic and foreign.
- ☐ 4. Frequent bibliographic and service publications.
- ☐ 5. Coordinated programs for conversion from "direct ordering" or other agents.
- ☐ 6. Worldwide resources.

If these are your needs, then Stechert Macmillan, Inc. is your one source—one service acquisitions agency!

With over 100 years of acquisitions experience, Stechert's tradition of excellence (started way back in 1872 by

Stechert-Hafner) offers you a total, comprehensive service, whether your library is large or small; academic, public or special; domestic or foreign.

Coupling these six Stechert Macmillan services with our annual "Holdings Renewal List" and quarterly claims report for periodicals; "Standing Order" program for continuations; Publisher Relations Program; and BOPFA (Blanket Order Program for French Acquisitions) and PONTA (Popular New Titles From Abroad) plans—it's easy to see why, when you select Stechert Macmillan, **"You Need Only One!"**

**Why not write our Sales Promotion Manager today for information about the complete line of Stechert Macmillan services!**

**Stechert  
Macmillan, Inc.**

*Serving Libraries Since 1872*  
866 Third Avenue / New York, N.Y. 10022 USA

# **READERS RESPOND**

## **Now is the time to check the**

### **JOURNAL OF CLINICAL ULTRASOUND**

**Official Journal of the American Institute  
of Ultrasound in Medicine**

**Editor: George Leopold, M.D.**

Indispensable as a central forum for up-to-date discussion of the current work in diagnostic ultrasound. Devoted exclusively to the clinical applications of ultrasound, it contains highly-illustrated original articles on new procedures and innovative techniques, as well as book reviews and a calendar of events, courses, and meetings.

Volume 7, 1979      Bimonthly

U.S. one year \$35.00—U.S. two years \$65.00

Outside U.S. add \$15.00 per year for postage and handling.

---

### **MEDICAL ULTRASOUND**

**Official Journal of the American Society  
of Ultrasound Technical Specialists**

**Editor: Sandra L. Hagen-Ansert, R.D.M.S.**

Features innovative new techniques and applications of ultrasound, and the basic methodologies of diagnostic and therapeutic procedures. It includes case reports, scientific and review articles, editorials and letters on clinical problems, book reviews, and listings of meetings and educational/training opportunities.

Volume 3, 1979      Quarterly      \$22.00

Outside U.S. add \$8.00 for postage and handling.

---

### **NEW!**

### **RESEARCH IN NURSING AND HEALTH**

**Editor: Harriet H. Werley, Ph.D.**

A new journal which reports original research in the areas of nursing practice, education, and administration; health issues relevant to nursing; and investigations of implementation of research findings in clinical settings. Widely acclaimed by its initial subscribers.

Volume 2, 1979      Quarterly      \$20.00

Outside U.S. add \$8.00 for postage and handling.

### **ORDERING INFORMATION for the above three journals:**

Send your subscription request to Mack Publishing Co., 20th and Northampton Streets, Easton, Pennsylvania 18042 (Attn: Mary Brogan).

# **TO WILEY JOURNALS.** **needs of your library users.**

## **JOURNAL OF BIOMEDICAL MATERIALS RESEARCH**

**The Official Journal of the Society for Biomaterials  
and the European Society for Biomaterials**

**Editor-in-Chief: A. Norman Cranin**

Evaluates preparation methods and use of plastics, ceramics, metals, and reprocessed animal tissue in fabrication of equipment and instrumentation used in medicine and biology.

Volume 13, 1979      Bimonthly      \$115.00

Outside U.S. add \$10.00 for postage and handling.

---

## **JOURNAL OF NEUROBIOLOGY**

**Editor-in-Chief: Graham Hoyle**

Publishes papers covering a wide range of neuroscience. All types of organism and techniques of research are acceptable that bear upon the common theme of relating cellular events to behavior.

Volume 10, 1979      Bimonthly      \$60.00

Outside U.S. add \$9.00 for postage and handling.

---

## **JOURNAL OF THE AMERICAN ACADEMY OF PSYCHOANALYSIS**

**Editor: Silvano Arieti**

A forum for inquiry into all areas of human behavior. Offers stimulating insights into new biological, cultural, and other discoveries related to the human psyche and psychoanalysis.

Volume 7, 1979      Quarterly      \$25.00

Outside U.S. add \$7.00 for postage and handling.

### **ORDERING INFORMATION for the above three journals:**

Send your subscription request to Juan Astudillo, Subscription Dept., John Wiley & Sons, Inc., 605 Third Avenue, New York, N.Y. 10016.

**JOHN WILEY & SONS, Inc.**

# CHEMICAL ABSTRACTS SERVICE

## CA SELECTS on Display

A great opportunity for you to examine all 76 CA SELECTS topics. Decide which topics interest you, then take FREE copies back to show your associates.

## FREE Issues of CHEMICAL INDUSTRY NOTES...

...the weekly publication that keeps you informed of the business aspects of the chemical industry.

## Discover CA SEARCH...

...the new computer file created by a merger of CASIA and CA CONDENSATES.

Ask about the workshops, workbooks, and other services our User Education Department offers.

Take a moment to visit the Chemical Abstracts Service booth. Review our entire range of services including printed, microform, and computer files. Staff will be present to discuss your chemical information needs.

**See us at Booth 10 in the Exhibit Area at the  
Hilton Hawaiian Village.**

## General Information

### Registration

Registration is in the lobby of the Mid-Pacific Convention Center and is open during the following hours:

Friday, June 1	2:00 p.m. — 10:00 p.m.
Saturday, June 2	7:00 a.m. — 7:00 p.m.
Sunday, June 3	7:00 a.m. — 7:00 p.m.
Monday, June 4	7:00 a.m. — 3:00 p.m.
Tuesday, June 5	9:00 a.m. — 3:00 p.m.
Wednesday, June 6	10:00 a.m. — 3:00 p.m.
Thursday, June 7	10:00 a.m. — 2:00 p.m.

### Ticket Sales

Tickets to the special events are on sale in the Registration Area up to twenty-four hours before the event, subject to availability.

### Exhibits

Exhibits are open during the following hours:

Monday, June 4	10:00 a.m. — 7:30 p.m.
Tuesday, June 5	9:00 a.m. — 4:00 p.m.
Wednesday, June 6	9:00 a.m. — 4:00 p.m.
Thursday, June 7	10:00 a.m. — 2:00 p.m.

### Hospitality

Welcome to Alohaland and the MLA Hospitality Center staffed by members of the Hawaii Medical Library group. The hospitality center will have information on all conference events, changes, cancellations or additions to the conference schedule. The Center will have comfortable chairs so drop in, relax for while, meet your friends and have your questions answered.

Hospitality will be located in the Coral Room II, Mid-Pacific Convention Center and staffed during the following hours:

Friday, June 1	6:00 p.m. — 9:00 p.m.
Saturday, June 2	6:00 p.m. — 9:00 p.m.

After Sunday the Hospitality Center will be in the Roof Garden of the Exhibit Pavillion and staffed during the following hours:

Sunday, June 3	8:00 a.m. — 4:00 p.m.
Monday, June 4	8:00 a.m. — 4:00 p.m.
Tuesday, June 5	8:00 a.m. — 4:00 p.m.
Wednesday, June 6	8:00 a.m. — 4:00 p.m.

### **MLA Scholarship Booth**

The MLA Scholarship Booth is in the lobby of the Mid-Pacific Convention Center and open during the following hours:

Monday, June 4	7:00 a.m. — 3:00 p.m.
Tuesday, June 5	9:00 a.m. — 3:00 p.m.
Wednesday, June 6	10:00 a.m. — 3:00 p.m.
Thursday, June 7	10:00 a.m. — 2:00 p.m.

### **Placement Service**

The Placement Service includes listings of both available positions and personnel. Provisions have been made for scheduling interviews during the period of the meeting. The Placement Service is located in Coral Room I, Mid-Pacific Convention Center and open during the following hours:

Friday, June 1	6:00 p.m. — 10:00 p.m.
Saturday, June 2	7:00 a.m. — 6:00 p.m.
Sunday, June 3	7:00 a.m. — 6:00 p.m.
Monday, June 4	8:00 a.m. — 6:00 p.m.
Tuesday, June 5	8:00 a.m. — 6:00 p.m.
Wednesday, June 6	8:00 a.m. — 6:00 p.m.
Thursday, June 7	8:00 a.m. — 6:00 p.m.

### **Daily Newspaper**

The *MLA Tradewinds* will report changes, cancellations or additions to the printed program including unofficial groups and informal meetings. Tidbits on local events and attractions will also be included. Copy for the next day's issue must be submitted by 3 p.m. to the press office. Pick up a copy at the Hospitality Center, Registration Area, or at the entrance to General Sessions.

### **Convention Ribbons**

## **Rules for MLA Business Meetings**

*Excerpted from the Bylaws, June 1976.*

### **Article II: Meetings**

#### **Section 5. *Quorum***

A quorum of five per cent of the voting members shall be required for the transaction of business. For purposes of determining a quorum, a person eligible to cast two votes shall be counted as two voting members.

#### **Section 6. *Voting***

To facilitate the counting of votes, the Executive Director shall provide easily seen voter identification to all eligible voters attending the meeting.

#### **Section 7. *Order of Business***

The order of business at the business meetings of the Annual Meeting shall be at the discretion of the presiding officer, but the business shall include:

Approval of the minutes of the Annual Meeting and of any special meetings of the membership held in the preceding year, but not necessarily of earlier meetings of the current session.

Reception of the reports of the Board of Directors, the Executive Director, the several other appointed officers, and the several committees and representatives.

Action on amendments to the Bylaws (if notice thereof has been given).

Announcement of the election of Officers and the Nominating Committee.

New business.

#### **Section 8. *Resolutions***

A voting member may offer at the Annual Meeting a complex motion introducing a new item of business only if written copies have been distributed at or before the meeting to each voting member present or by the unanimous consent of voting members present.

### **Article XI. Parliamentary Authority**

#### **Section 1. *Rules***

The rules contained in the current edition of *Robert's Rules of Order Newly Revised* shall govern the Association in all cases to which they are applicable and in which they are not inconsistent with these Bylaws and any special rules of order the Association may adopt.

*From Robert's Rules of Order Newly Revised (1970):*

Before a member. . . can make a motion or speak in debate. . . he must *obtain the floor*; that is, he must be *recognized* by the chair as having the

exclusive right to be heard at that time. (p. 23) [At MLA Business Meetings, this is done by first going to the nearest microphone.]

When the names of the members are not generally known, a person addressing the chair to claim the floor should state his name and any necessary identification. . . , as [John Doe, Oxbridge University Medical Library] . (p. 24)

Each member has the right to speak twice on the same question on the same day, but cannot make a second speech on the same question so long as any member who has not spoken on that question desires the floor. (p. 35)

A member who has spoken twice on a particular question on the same day has *exhausted his right to debate* that question for that day. (p. 35)

Without the permission of the assembly, no one can speak longer than. . . ten minutes. (p. 35)

Debate must be confined to the merits of the pending question. (p. 35)

Speakers must address their remarks to the chair, maintain a courteous tone, and — especially in reference to any divergence of opinion — should avoid injecting a personal note into debate. (p. 35)

Speakers should refer to officers only by title, and should avoid the mention of other members names as much as possible. (p. 35)

If at any time the presiding officer rises to. . . speak within his privilege, any member who is speaking should be seated (or should step back slightly [from the] microphone. . .) until the presiding officer has finished. (p. 333)

## Parliamentary Know-How

To *introduce business*: move to main motion.

To *approve action*: move to accept, adopt or ratify.

To *modify or change*: move to amend or refer to a committee.

To *defer action*: move to postpone to a definite time, refer to a committee or lay on table.

To *limit discussion*: move to limit debate.

To *stop discussion*: move the previous question.

To *determine correctness of an announced voice vote*: move for division of the assembly.

To *suppress a question*: object to consideration, move to postpone indefinitely, or lay on table.

To *object to decision of the chair*: move an appeal from the decision.

To *make a request*: call for point of information, rise to parliamentary inquiry, or raise question of privileges.

*To consider a second time:* move to take from the table, reconsider or rescind.  
*To repeal action:* move to rescind.

Motions grouped according to the purpose to be accomplished. Based on *Robert's Rules of Order, Newly Revised* (1970 Edition) (pp. 48-68).

## **Most Used Motions**

Reference: *Robert's Rules of Order, Newly Revised* (1970 Edition)

### **Main Motion**

Proposal for action or for expression of certain views. Only *one* main motion may be on the floor at a time. (p. 52)

### **Subsidiary Motions**

Motions to modify or delay action on the main motion. *In order* when the main motion is being discussed: (pp. 52-56)

**To Amend:** (Or to modify) — five methods to amend: 1) to strike; 2) to insert; 3) to strike and insert; 4) to add at end of sentence; 5) to substitute. (pp. 108-135). Substitution generally is used only for an entire paragraph or section; strike and insert is quicker, easier, and accomplishes the same purpose. (pp. 112-113)

**Refer to Committee** — For information, for appropriate recommendations and/or to carry out recommendations. (p. 140)

**Postpone to a Certain Time** — Defer further consideration of the main question until a definitely stated time. (p. 150)

**Previous Question** — to close debate on current question. Affirmative vote (two-thirds without discussion) closes debate and orders immediate vote on pending question. The call "Question" may be ignored by the chair. (p. 166)

**Lay on Table** — Set aside temporarily. Majority vote and no discussion. Motion may not be modified. If definite time is desired, *postpone* should be employed. (p. 177)

### **Incidental Motions**

These arise from pending question and must be decided before the question. (p. 58)

Request for Information (p. 245)

Point of Order (p. 212)

Appeal (p. 218)

Division of Assembly (p. 237)

No recognition required. Division is used by the chair or assembly when the outcome of a vote is uncertain. A standing vote need *not* be counted unless the outcome is still uncertain or a record of the vote is required. (pp. 42-43)

#### **Reconsider**

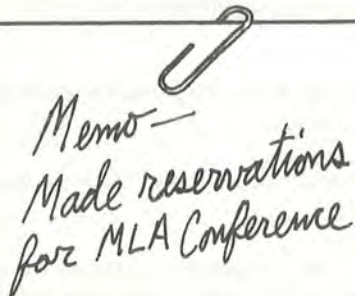

Must be made by one who voted on the prevailing side: In order *only* on the same day or the next succeeding day. If reconsideration carries, the motion to which it applies is again before the assembly. (pp. 265-281)

#### **Rescind (Or Cancel)**

May be called for by anyone when it is too late for reconsideration, if action is not under way. Two-thirds vote without notice required, majority if notice to rescind has been given. (pp. 256-260)

#### **Adjourn**

May be accomplished by general consent or by motion. (pp. 199-206)

## Official Program

Medical Library Association policy states that all meetings are open to all Association members, or members of the Press, with closed meetings, or portions of meetings, held only for discussion of matters affecting the privacy of individuals or institutions. Room designations refer to the Hilton Hawaiian Village Hotel, unless otherwise noted.

### *Thursday, May 31*

1:00 p.m. — 5:00 p.m.

#### **Board of Directors**

Presiding: Erika Love, President

Board of Directors Room, Ocean Tower

### *Friday, June 1*

8:00 a.m. — 5:00 p.m.

#### **Certification Examination Review Committee**

Chairman: Pauline V. Angione

Gold Room II, Ocean Tower

8:30 a.m. — 5:00 p.m.

#### **Board of Directors**

Presiding: Erika Love, President

Board of Directors Room, Ocean Tower

5:00 p.m. — 6:00 p.m.

#### **Continuing Education Course Instructors' Meeting**

Empire Room I, Ocean Tower

### *Saturday, June 2*

8:00 a.m. — 4:00 p.m.

#### **Continuing Education Courses**

See Page 19

8:00 a.m. — Noon

#### **MLA/NLM Liaison Committee**

Chairman: Virginia Holtz

Beach Club, Ocean Tower

1:00 p.m. — 5:00 p.m.

#### **Board of Directors**

Presiding: Erika Love, President

Board of Directors Room, Ocean Tower

5:00 — 6:00 p.m.

**Continuing Education Course Instructor's Meeting**  
Empire Room I, Ocean Tower

*Sunday, June 3*

8:00 a.m. — 4:00 p.m.

**Continuing Education Courses**  
See Page 19

8:00 a.m. — 5:00 p.m.

**Recertification Committee**  
Chairman: Louise Darling  
Board of Directors Room, Ocean Tower

9:00 a.m. — 5:00 p.m.

**RML Directors**  
Beach Club, Ocean Tower

5:00 p.m. — 6:00 p.m.

**New Member/International Visitor Reception**  
The Long House

If you are a new member, a member or visitor from outside the United States or Canada, or are attending a Medical Library Association Annual Meeting for the first time, you are cordially invited to attend this reception held in your honor.

7:30 p.m. — 9:30 p.m.

**Aloha Party**  
Hilton Hawaiian Village Rainbow Terrace

Renew old friendships and meet new colleagues on the terrace of the Rainbow Pool. Dress casually and be prepared to have a memorable evening. Please present your ticket at the door. Cash Bar

*Monday, June 4*

7:00 a.m. — 9:00 a.m.

**COMMITTEE MEETINGS**

**Bylaws Committee**  
Chairman: Emil F. Frey  
Beach Club, Ocean Tower

**Handbook of Medical Practice: Vol. 2 Chapter Authors**

Chairman: Louise Darling  
Gold Room I, Ocean Tower

**Health Sciences Library Technicians Committee**

Chairman: Eloise C. Foster  
Empire Room II, Ocean Tower

**International Cooperation Committee**

Chairman: Frances Groen  
Gold Room II, Ocean Tower

**Legislation Committee**

Chairman: Naomi C. Broering  
Gold Room III, Ocean Tower

**Oral History Committee**

Chairman: Judith Overmier  
Nautilus Room, Mid-Pacific Convention Center

**Program & Convention Committee**

Chairman: Sara Hill  
Mynah Room, Mid-Pacific Convention Center

**Publication Panel**

Chairman: Samuel Hitt  
Ti Leaf Room, Mid-Pacific Convention Center

**Ad Hoc Committee to Study MLA's Role in Library Related Research**

Chairman: Nancy Lorenzi  
Empire Room I, Ocean Tower

**Subcommittee on Audiovisual Standards and Practices**

Chairman: Gloria Hurwitz  
Board of Directors Room, Ocean Tower

**Subcommittee on Hospital Library Standards and Practices**

Chairman: Betsy Schreder  
Terrace Lanai, Ocean Tower

8:00 a.m. – 9:00 a.m.

**International Visitor/New Member Orientation**

C. K. Huang, Chairman, International Cooperation Committee  
Lois Clark, Chairman, Hospitality Committee  
Coral Room II, Mid-Pacific Convention Center

The purpose of this session is to provide an opportunity for all international members and visitors attending the annual meeting to meet and get acquainted with each other and with the members of the International Cooperation Committee. The Hospitality Committee will present an orientation about the annual meeting programs and will answer questions. All international visitors are urged to attend.

9:00 a.m. — 10:00 a.m.

**Opening Session**

**Welcome**

Rita Kane, National Program Chairman, University of California, Berkeley, California

John Breinich, Associate Program Chairman, Hawaii Medical Library, Honolulu, Hawaii

**Presidential Address**

Erika Love, Director, Medical Center Library, University of New Mexico, Albuquerque, New Mexico

Coral Rooms III & IV, Mid-Pacific Convention Center

10:00 a.m. — 10:30 a.m.

**Coffee Break — Visit the Exhibits**

Tapestry Lounge, Mid-Pacific Convention Center

10:30 a.m. — 11:30 a.m.

**General Session A — Hawaiian Medical History**

Moderator: Carol W. Arnold, School of Public Health Library, University of Hawaii, Honolulu, Hawaii

Coral Rooms III & IV, Mid-Pacific Convention Center

**Historical Development of the Health Sciences in Hawaii, 1778-1912**

O. A. Bushnell, Professor Emeritus of Microbiology and Medical History, University of Hawaii, Honolulu, Hawaii

Native physicians, *kahuna lapa'au*, provided adequate medical care for Hawaiians before 1778, when these islands were discovered by Western explorers. But native medical practices could not protect Hawaiians from the effects of the numerous infectious diseases, all new to islanders, that overwhelmed them after 1778. Western physicians were no more successful in preventing or treating infectious diseases, but they did excel in surgical procedures, and they did introduce hospital care and "the modern scientific attitude." Visiting ships' surgeons and self-taught "doctors" offered Hawaiians the only Western-style medical and surgical help until 1820. After that important year American missionaries and a few resident physicians provided rudimentary medical care. The first hospital for civilians was established in Honolulu in 1859. A medical school was founded in 1870 — and killed two years later for reasons of economy. Hawaii did not learn about the modern world of medicine and health care until the reign of King Kalakaua (1874-1891), and did not really attempt to enter that world until 1912.

## **The Federal Leprosy Investigation Station on Molokai, Hawaii, 1909-1911 — An Opportunity Lost!**

Jerrold M. Michael, Dean and Professor of Public Health, School of Public Health, University of Hawaii, Honolulu, Hawaii

In his message to Congress on November 14, 1904, President Theodore Roosevelt recommended the construction and operation of a hospital and laboratory in the Hawaiian Islands for the study of leprosy. Congress appropriated the money on March 3, 1905, and on June 9, 1905, the Surgeon General of the United States Public Health and Marine Hospital Service personally laid out the site at the isolated leprosy colony on the Island of Molokai. The Leprosy Investigation Station was opened on December 23, 1909, and closed approximately two years later. For almost 70 years, the reasons for the lack of success of this facility, one of the best equipped and staffed research facilities of its time, have been shrouded in bureaucratic verbiage and the folklore of the Hawaiians. A clear fact is that it took 30 more years for a productive treatment for leprosy to be established at the Research Center in Carville, Louisiana. The presentation will include a brief history of the disease in Hawaii, the current status of its prevalence and treatment, and a detailing of the brief history of the Leprosy Investigation Station on Molokai, including pictures of its construction and condition prior to dismantling.

11:30 a.m. — 1:00 p.m.

**New Committee Chairmen/MLA Board Luncheon**  
Hilo Suite, Ilikai Hotel

1:00 p.m. — 2:30 p.m.

### **CONCURRENT SESSIONS**

**Issues in Hospital Library Service: Effect or Revised JCAH Standards on Hospital Libraries**

Coral Room III, Mid-Pacific Convention Center

**Issues in Audiovisual Services**

Coral Room IV, Mid-Pacific Convention Center

**Advances in Library Automation**

Coral Room II, Mid-Pacific Convention Center

\*\*\*\*\*

## **Issues in Hospital Library Service: Effect of Revised JCAH Standards on Hospital Libraries (Coral III)**

Moderator: Betsy S. Schreder, Librarian, Veteran's Administration Medical Center, Wilkes-Barre, Pennsylvania

### **Development and Implementation of JCAH "Professional Library Services" Standards**

Douglas K. Duncan, M.D., Associate Program Director, Hospital Accreditation Program, Joint Commission on Accreditation of Hospitals, Chicago, Illinois

The presentation will deal with the primary mission of the JCAH, the development, publication, and implementation of the standards as they apply to the general acute care hospitals in the United States. The development and implementation of the "Professional Library Services" will be discussed, and its relationship to the entire accreditation process will be explained.

### **The New JCAH Library Standards and the Survey Process**

Judith Messerle, Coordinator of Information Services, St. Joseph Hospital Medical Center, Alton, Illinois

This paper reflects the results of a survey of libraries in hospitals visited by the Joint Commission for Accreditation of Hospitals (JCAH) both prior to and after implementation of the new JCAH Standards for Professional Library Services. Analyses will demonstrate changes in surveyor's questions following the August 1978 effective date and will note those recommendations, written and verbal made for surveyed hospital libraries.

### **The 1978 Revised JCAH Standard for Professional Library Service: It's Impact in Region XI**

Alison Bunting, Head, Consulting and Training Services, Pacific Southwest Regional Medical Library Service, Los Angeles, California

This paper will report reactions of hospital administrators and hospital librarians in Region XI (Arizona, California, Hawaii, and Nevada) to the recently revised standard for Professional Library Service of the Joint Commission on the Accreditation of Hospitals. Responses to questions directed to both hospital administrators and librarians in the areas of library organization, resources, and staffing will be discussed. In addition, hospital librarians' comments on the effect the revised standards have had on their library operations will be related.

### **Can Hospitals Afford Medical Libraries?**

Robert Willcox, Administrator, Kaiser Foundation Hospitals, Honolulu, Hawaii

The age of reason has fallen victim to the age of criticism. The demands made upon hospitals to contain costs are forcing Hospital Administrators to re-evaluate the institutional role of subsidizing many services and physician educational activities. Is the Medical Library an endangered species?

## **Issues in Audiovisual Services (Coral IV)**

Moderator: Anita M. Tschida, Media Librarian, Arizona Health Sciences Center Library, University of Arizona, Tucson

### **Interlibrary Loan of Audiovisuals**

Carmel Bush, Talon Regional Medical Library Service, Dallas, Texas

The principles, structures, policies, procedures and problems of interlibrary loan of audiovisuals in health science libraries is reported. Representative examples of networks, such as the Regional Medical Library Programs, the Veterans Administration Library Network, and health science library consortia, are included in the study. The status of interlibrary loan of audiovisuals as currently supported by the National Library of Medicine and in the provisions of the National Interlibrary Loan Code is examined.

### **Library Mobilization for Continuing Education**

Rachael K. Goldstein, Director, Merril K. Schindler, Audiovisuals Librarian, and Jane Port, Associate Director, Gustave L. & Janet W. Levy Library, Mount Sinai School of Medicine, New York, New York

Libraries are a natural resource for independent continuing education activities by their users; however, until recently, there has been little evidence of their active participation in either the development of new services or in the adaptation of traditional services to support ongoing formal CE programs at their institutions. The postgraduate school of the Mount Sinai School of Medicine in New York has, for many years, offered a wide range of CE courses for health practitioners. Under a grant from the NLM, the Levy Library of Mount Sinai has been working for over two years on a project that includes analyzing needs and developing and evaluating the effectiveness of library-related services for CE faculty and students. This paper will describe project activities and present the results of a survey assessing faculty attitudes on the use of audiovisuals in CE instruction. Responses to project activities indicate that further exploration and innovation are required to meet the growing and, largely, unaddressed needs of this important library user population.

### **The CIP Program for Audiovisuals: Efficacy, Utility, Prospects**

Linda Kudrick, AVLINE Coordinator, Technical Services Division, National Library of Medicine, Bethesda, Maryland

The Cataloging in Publication (CIP) Program for audiovisuals is a cooperative effort of the National Library of Medicine (NLM) and the Health Sciences Communications Association (HeSCA). The purpose of the program is to attempt to improve the bibliographic control of non-print media and to reduce the costs of processing these materials. A pilot project was operated for a seven month period in 1978 with eleven producers to determine the feasibility of providing CIP cataloging data on non-print media. During this time each producer submitted pre-production information on planned

productions to NLM. Cataloging information on cards was then returned to each producer for incorporation of the data onto the media. An evaluation of the pilot project conducted in the fall of 1978 indicated that the CIP concept for audiovisuals was a feasible one. Based on NLM's experience, the CIP program will be expanded in 1979 to include all producers of health sciences media who are interested.

### **Advances in Library Automation** (Coral II)

Moderator: Patricia Knudsen, Health Sciences Library, University of Maryland, Baltimore, Maryland

### **Research and Development Programs in Library and Information Systems At National Library of Medicine**

Charles M. Goldstein, Chief, Computer Technology Branch, Lister Hill National Center for Biomedical Communications, Bethesda, Maryland

The National Library of Medicine is supporting within the Lister Hill National Center for Biomedical Communications an in-house R & D program in library and information systems that is addressing future needs of medical libraries and learning resource centers. This program encompasses library automation, advanced information technologies, and computer based educational technology. In the area of library automation, the Lister Hill Center is developing a minicomputer based Integrated Library System (ILS). The objectives of the ILS are to (1) provide for a modular, functionally integrated system, (2) maximize transportability, (3) exploit minicomputer/microprocessor technologies, (4) allow system network access to national library resources such as OCLC, and (5) support multi-level online user (cordial) interfaces. As of this conference, the first two modules, Circulation and Integrated Online Catalog, will have been completed. One of the most exciting efforts in information technology is directed toward the use of the videodisc for the publication of machine readable text/information at storage densities of the order of 1 to 5 billion characters per side. At this storage density the whole of MEDLINE, ca. 3 million citations could be "published" on one or two videodiscs at a cost of publication of less than \$10 per disc. These programs and the potential impact on medical libraries will be discussed.

2:30 p.m. — 3:00 p.m.

**Break — Visit the Exhibits**

3:00 p.m. — 5:00 p.m.

### **SPECIAL INTEREST GROUP PROGRAMS**

#### **Medical Library Education Group**

Chairman: Jess A. Martin

Empire Room, Ocean Tower

## **Library Education — What Next?**

Panelists will present a realistic appraisal of education for a competitive job market. Panelists will include Fred Roper, Ph.D., School of Library Sciences, University of North Carolina, Chapel Hill, North Carolina.

Beatrix Robinow, Director, Health Sciences Library, McMaster University, Hamilton, Ontario, Canada.

### **Dental Libraries Group**

Chairman: Frank Mason

Gold Room II, Ocean Tower

#### **"Chinese Medicine"**

K.S. Tom, M.D., Honolulu, Hawaii

### **Hospital Libraries Group**

Chairman: Phyllis Bennett

Coral Room IV, Mid-Pacific Convention Center

Members will participate in discussion groups dealing with relevant issues in today's hospital libraries. Business meeting will follow.

### **Public Health and Health Administration Libraries**

Chairman: Stephanie Normann

Gold Room III, Ocean Tower

The meeting will feature round table discussions with resource people highlighting the following topics: Health planning and the HSA's; HEALTHLINE; and new data elements to be included in the 1980 Census. After these presentations the floor will be opened for the annual sharing session of current concerns in public health/health administration. The variety of ideas brought forth in the sharing session is of mutual benefit to all who attend.

### **Research Libraries Group**

Chairman: Ann Hutchinson and Program Chairman: Carole Stock

Nautilus Room, Mid-Pacific Convention Center

#### **"The National Periodical Center"**

C. Lee Jones, Council for Library Resources, Washington, D.C. and Nancy Gwinn, Council for Library Resources, Washington, D.C.

5:00 p.m. — 7:00 p.m.

### **Membership Committee**

Chairman: Lucretia McClure

Empire Room I, Ocean Tower

5:00 p.m. — 7:00 p.m.

### **Exhibitors' Cocktail Party**

Tapestry Lounge, Mid-Pacific Convention Center

*Tuesday, June 5*

7:00 a.m. — 8:00 a.m.

**COMMITTEE MEETINGS**

**Honors and Awards Committee**

Chairman: Nancy G. Blase

Gold Room III, Ocean Tower

**International Cooperation Committee**

Chairman: Frances Groen

Terrace Lanai, Ocean Tower

**Subcommittee on Hospital Library Standards and Practices**

Chairman: Betsy Schreder

Empire Room II, Ocean Tower

**Ad Hoc Committee on MLA Group Structure Implementation**

Chairman: Ursula H. Poland

Nautilus Room, Mid-Pacific Convention Center

**Ad Hoc Committee to Study MLA's Role in Library Related Research**

Chairman: Nancy Lorenzi

Empire Room I, Ocean Tower

8:00 a.m. — 9:30 a.m.

**BUSINESS MEETING I**

Presiding: Erika Love, President

Coral Room III & IV, Mid-Pacific Convention Center

**Introductions:**

Parliamentarian, T. Mark Hodges

Sergeant-At-Arms, James H. Parrish

Executive Director, Shirley Echelman

**Registration Report and Quorum**

Shirley Echelman

**Greetings from Abroad**

**New Member Recognition**

Lois Ann Colaianne, President-Elect

Response: Anna M. Habetler, San Diego

## Approval of Minutes 78th Annual Meeting — Chicago

### Reports of Board and Officers

Erika Love, President, Board of Directors and Executive Committee  
Lois Ann Colaianne, Committee on Committees, Elections Committee  
and Nominating Committee  
Virginia Holtz, Finance Committee  
Shirley Echelman, Executive Director-Headquarters  
Robert F. Lewis, Editor of the *Bulletin* of the Medical Library  
Association  
Karen Ambrose, Editor of the *MLA News*

### Reports of Committees

Standing and Ad Hoc Committees are grouped according to their  
respective Board Liaisons. MLA Representatives' Reports appear as  
part of their Standing Committee's Annual Report and will not be  
taken up separately.

#### John A. Timour, Board Liaison

Ad Hoc Committee to Prepare a Constitution: Elliot H. Morse,  
Chairman  
Ad Hoc Committee on White House Conference: Lynn Kasner,  
Chairman  
Ad Hoc Committee to Select an Editor of the *MLA News*: John  
Timour, Chairman  
Bylaws Committee: Emil Frey, Chairman  
Continuing Education: E. Jean Antes, Chairman  
Editorial Committee for the *MLA News*: Julie Johnson, Chairman  
Membership Committee: Lucretia McClure, Chairman

#### Nina W. Matheson, Board Liaison

Legislation Committee: Naomi C. Broering, Chairman

#### Jean K. Miller, Board Liaison

Health Sciences Library Technicians Committee: Eloise C. Foster,  
Chairman  
Honors and Awards Committee: Nancy G. Blase, Chairman  
Honors and Awards Subcommittees:  
Janet Doe Lectureship — David Bishop, Chairman; Ida and George  
Eliot Prize — Gertrude Lamb, Ph.D., Chairman; Murray Gottlieb  
Prize — Nancy Whitten Zinn, Chairman; Rittenhouse  
Award — Nancy G. Blase, Chairman.  
Vital Notes Participatory Panel: Spencer S. Marsh, Chairman

#### Phyllis S. Mirsky, Board Liaison

Bulletin Consulting Editors Panel: Robert F. Lewis, Chairman  
Certification Appeals Panel: Phyllis S. Mirsky, Chairman

Moderator: Eleanor Y. Goodchild, Director, Medical Library, County of  
Los Angeles/Harbor General Hospital

**VA Hospitals Develop Programs to Provide Health Care Information to Patients**

Lionelle Elsesser, Librarian, Veteran's Administration Medical Center, Minneapolis, Minnesota

It is a widely held, but little proved, belief that where there is a centralized control point for disparate organizations providing similar services, there is also some unity of philosophy, action and outcome. The Veterans Administration while clearly committed to facilitating patient health education has found it difficult or impossible to promulgate a uniform code of involvement for "field" stations. This is, most likely, an excellent state of affairs since it encourages and allows the development of health information systems which are cognizant of, and responsive to, local needs, resources, and human dynamics. It is also fortuitous in that while locally discrete programming can

evolve, the process, lessons, and outcomes can be shared throughout an already established network. By extension this network can become a source of both supportive and evaluative input. The author will share an overview of the potpourri of library approaches to patient health information currently existing in the Veterans Administration.

#### **Consumer Health Information : Libraries as Partners**

Sara Jean Jackson, Assistant Director for Public Services and Dottie Eakin, Assistant Director for Technical Services, Houston Academy of Medicine — Texas Medical Center Library, Houston, Texas

The Houston Academy of Medicine — Texas Medical Center Library and the Houston Public Library have each experienced heavy demands from the public for health information. This paper describes the development and early implementation of a consumer health information program through the cooperative efforts of a medical center library and a metropolitan public library. The philosophy behind the development of this program is predicated on the emphasis on consumer education in American society today and a growing awareness among physicians and other health professionals of the public's need for medical and health information, and the fact that the demand can be expected to grow. Justification for and purposes of a cooperative program are outlined. Funding sources are discussed; program goals and objectives (with and without outside funding) are outlined. Collection development, the establishment of referral patterns and strengthened reference assistance are identified as the major program components. Progress to date and future expectations will be described.

#### **The Role of Health Education in Disease Prevention**

John J. Witte, M.D., Medical Director, Bureau of Health Education, DHEW, Center for Disease Control, Atlanta, Georgia

Currently the major causes of death in the United States are not best prevented through vaccines such as smallpox, epidemic typhus, polio, measles or pertussis, or by vector control to reduce the occurrence of malaria, plague and yellow fever or by improved sanitation to prevent typhoid and other scourges. The traditional public health measures of immunization, improved sanitation and insect control have had impressive impact on what were once fearful plagues and major causes of death and disability in the United States. Now we have evolved into a new era in public health. Our major challenges are in the prevention and control of heart disease, cancer, stroke, alcoholism, cigarette smoking, diabetes, and other chronic disease problems which are now the major killers in America. There are no vaccines, no pesticides or simple panaceas for these problems. I contend that all of these diseases can most effectively be prevented and controlled through imaginative and aggressive health education programs. Medical librarians should assume an increasing responsibility as educators and exemplars. This is a real challenge because health education is being increasingly recognized as an important discipline to effect major changes in the frequency of disease morbidity and mortality.

Those of us who preach and practice the value of health education must now face this challenge. We must continue to work together at all levels to do this most effectively.

### **Issues in Technical Services (Coral II)**

Moderator: Thomas Higdon, Librarian, Arizona Health Sciences Center Library, University of Arizona, Tucson, Arizona

### **Automation and Telefacsimile: New Approaches to Cooperative Cataloging**

Naomi C. Broering, Librarian, Georgetown University Medical Center, Washington, D.C.

A centralized cataloging processing center utilizing OCLC was established at Georgetown University Medical Center Library in 1977. The members consist of two medical school libraries and six hospital libraries. In addition to cataloging and card production, the services provided by this center include spine and book pocket labels, printed copies of the OCLC records, composite magnetic tapes, rapid communication via telefacsimile, and OCLC produced acquisitions lists. Resource sharing aspects of this project are highlighted and the outcome of a communication experiment using the U.S. mails, a delivery system and telefacsimile is reported.

### **Review of the 4th Edition of the NLM Classification Schedule: Three Perspectives**

Lillian Kozuma, Head, Cataloging Section, National Library of Medicine, Bethesda, Maryland

Kathryn Hoffman, Head Catalog Librarian, Houston Academy of Medicine, Texas Medicine Center Library, Houston, Texas

Sherill Sorrentino, Head of Cataloging, Harbor-UCLA Medical Center, Torrance, California

### **Issues in User Education (Coral IV)**

Moderator: Louise Darling, Biomedical Library, University of California, Los Angeles, California

### **Library Use Instruction in the Graduate School**

Jess A. Martin, Director, Center for the Health Sciences Library, University of Tennessee, Memphis, Tennessee

Medical education should include formal course work on the effective use of a health sciences library. The formal teaching effort of health sciences librarians at the University of Tennessee Center for the Health Sciences in Memphis is described. Three courses on the use of the library are offered to graduate and undergraduate students at U.T. This paper deals primarily with the course offered to graduate students of the Graduate School that has been included in that School's curriculum for five years. Instruction for the graduate students is provided through lectures but is supplemented by videotapes, audiotapes, slides and self-instructional packages, workshops and practical exercises. The last class meeting is devoted to an evaluation of the course by the students.

**A Survey of Current Library User Education Programs for Pharmacy Students**  
Sherrilynn Shirley and Marie Miller, Medical Library, University of Southern California, Los Angeles, California

Today's pharmacist not only must respond to the burgeoning demands of patients for drug information but also must play an increasingly important role as a provider of information to other health professionals. Not surprisingly, many corresponding changes in curriculum design and program emphasis in pharmacy schools have been made in recent years. In order to determine the extent to which these changes have affected library programs for pharmacy students, a survey of these programs has been completed. The results of this survey will be reported and a few specific programs described briefly. The implications of this study to the design of library user education programs for other health professionals will be discussed.

**Locating Library Materials is Only the Beginning: An Integrated Literature Use Course for Epidemiology Students**

Julie Kuenzel Kwan and Gail Yokote, Biomedical Library, Center for the Health Sciences, University of California, Los Angeles, California

"Research Resources in Epidemiology", a graduate course in the UCLA School of Public Health, was developed in response to faculty recognition that students need formal education in the organization and use of the epidemiologic literature. Students enter this field from diverse academic backgrounds with varying library skills. To enroll, students must have taken two quarters of advanced epidemiology courses so that they are able to analyze epidemiologic data. Reference librarians worked closely with faculty in the design and teaching of the course which includes: epidemiology journal literature; current awareness methods; personal reprint files; using library collections, including the card catalog, printed abstracting and indexing services, and on-line search systems; finding and using statistical information; reading and analyzing articles; and presenting research findings for publication. The presentation also discusses the relationship between faculty and librarians, the curriculum review process, and the difficulty of publicizing the course for maximum student enrollment.

3:00 p.m. — 3:30 p.m.

**Break — Visit the Exhibits**

Tapestry Lounge, Mid-Pacific Convention Center

3:30 p.m. — 4:45 p.m.

Moderator: Nancy W. Zinn, University of California, San Francisco, California

**3:40 p.m.**

**Education and Attitudes of Early Medical Librarians**

Estelle Brodman, Ph.D., Washington University School of Medicine, St. Louis, Missouri

A new school of "revisionist historians" of librarianship holds that many librarians in the latter part of the 19th and early 20th centuries entered librarianship because as educated women not many professions were open to them besides teaching, secretarial work, or the new field of librarianship. But, as women, they were not supposed to be aiming at becoming chief librarians, but merely lower-paid menials under the rule of male chief librarians. For this reason, as one writer put it, library school training stressed techniques for low-paid mechanics. An examination of the recorded taped interviews of several women medical librarians who entered the field around World War I is made to see whether these women fit the theories of the "revisionist historians" detailed above; and, if so, what effect this might have had on the development of American medical librarianship and the Medical Library Association.

**3:55 p.m.**

**Archives of David M. Levy: Problems and Solutions**

Mary Mylenki, Payne Whitney Psychiatric Clinic, New York, New York

During the summer of 1978, the Archives of Psychiatry of the Payne Whitney Psychiatric Clinic, New York Hospital-Cornell Medical College, received a gift of the papers of Dr. David M. Levy. Dr. Levy is well-known in the field of child psychiatry, having developed the theories of sibling rivalry and maternal overprotection and rejection, and having been the first medical director of the Institutes of Child Guidance. Such manuscript gifts fall somewhat outside the usual experience of a departmental library, and their handling can present some unique opportunities and challenges. I will discuss the determination of the organizational approach to the collection; problems of confidentiality of patients' records and case studies and the right to privacy; access to the collection by scholars and researchers; and problems involving the physical handling and disposition of the large collection.

**4:10 p.m.**

**Women in Medicine: An Oral History Project on Women Physicians**

Carol H. Fenichel, Medical College of Pennsylvania, Philadelphia, Pennsylvania

Historically, the number of women physicians in the United States has been small. Discrimination, sex role stereotyping and the difficulties of combining a demanding medical career with family life discouraged many women. Those who did persist often chose to practice in fields thought especially suited to women, such as pediatrics, or were drawn to specialties like pathology, psychiatry and public health which permitted a regular schedule. These patterns have begun to change. For the first time in history women will have an opportunity to influence the practice of medicine in the U.S. In 1976 the Medical College of Pennsylvania established an oral history project to explore the impact of these developments. Taken together, the histories shed light on the issues which have affected women physicians, and convey a feeling for the heterogeneity, the breadth of experience which has characterized women's participation in medicine in the past 60 years.

**4:25 p.m.**

**Japan Medical Library Association and Interlibrary Loan**

Nobuko Takano, Tokyo Medical College, Tokyo, Japan

In 1927 librarians from five medical colleges organized the association which we call today The Japan Medical Library Association. Since the foundation of the Association interlibrary loan has been one of its fundamental activities. A union catalog of periodicals is an essential tool for interlibrary loan. The Association published the first edition of the Union Catalog of Medical Periodicals in 1931; the sixth edition of 1977 included over 9,500 foreign titles. In recent years the JMLA has distributed their union catalogs to health sciences libraries in Southeast Asian countries, and we accept over 4,000 photocopy requests from those countries through the International Medical Foundation of Japan every year.

## **Session 2: Hospital Libraries (Coral II)**

Moderator: Marilyn Schwartz, Naval Regional Medical Center, San Diego, California

**3:40 p.m.**

### **A Quality Assurance Program for Health Sciences Libraries**

Holly Shipp Buchanan, Norton-Children's Hospitals, Louisville, Kentucky

The development of quality assurance programs mandated by federal law and the Joint Commission on Accreditation of Hospitals, has provided a model that can be used to assess and assure the quality of services provided by any health sciences library. The quality assurance program at Norton-Children's Hospitals is unique in that it was developed as a tool to be used by all Department Heads to communicate with Administration. A description of the program encompasses the development and weighting of criteria, methods of measurement, monthly internal and random external audits, and the reporting mechanism used to communicate results to Administration. The relationship of the quality assurance program to other hospital management tools (budgeting, attitude survey, standards of performance and productivity-staffing) is presented. Future expansion of the Library's quality assurance program is discussed.

**3:55 p.m.**

### **Investigation of Standards for Hospital Library Resources in the Commonwealth of Massachusetts**

Patricia J. McGrath, Chairman, Library Standards Committee, Massachusetts Health Sciences Librarians

A questionnaire accompanied by an explanatory letter was sent to administrators of all hospitals in Massachusetts regarding their Library services and resources, with a copy to each library as well to promote communication between the administration and the library services where it did not already exist. The data were grouped in several ways. Hospitals were divided into groupings according to size as well as arranged geographically to depict strengths and weaknesses on an area basis. Follow-up with the administrators is in process at this writing.

**4:10 p.m.**

### **The Green Satellite Takes Off: Or, A Hospital Library, Before and After**

Barbara Bury and Evelyn Olivier, The University of Texas Health Science Center at San Antonio, Texas

Ever wonder if you could light a fire under the administration and really get the funds and personnel to "do things right". In San Antonio, Texas we had the unusual opportunity to do just that. The major ambulatory care teaching hospital, The Robert B. Green, is a county-operated hospital located in downtown San Antonio about ten miles from the main University of Texas Health Science Center campus. Faculty and students attend clinics at the Green

Hospital in primarily four departments — Family Practice, Obstetrics, Pediatrics and Psychiatry — with full time staff there throughout the week. Before becoming the Green Satellite the library was operated by the County Hospital District and had only minor relationship to the UTHSCSA Library. This paper describes the development and services of the Green Satellite.

**4:25 p.m.**

**Planning and Surviving, the Five-fold Expansion of a Hospital Library**

Jo Yeoh, Riverside Methodist Hospital, Columbus, Ohio

This paper describes the planning of a new library facility from proposal writing to the development of architectural plans, focusing on the librarian's role in this process.

**Session 3: Clinical Medical Librarianship (Coral II)**

Moderator: Samuel Hitt, University of North Carolina, Chapel Hill, North Carolina

**3:40 p.m.**

**The Instructional Clinical Librarian**

Jean E. Crampon, Southern Illinois University School of Medicine, Springfield, Illinois

According to Gertrude Lamb, Ph.D., there are four steps required to develop and evaluate a program. These four steps are: 1) acceptance, 2) impact on patient care, 3) influence on the information seeking behavior of other health professionals, and, 4) a combination of the first three. At Southern Illinois University School of Medicine, a limited Clinical Medical Librarian program was instituted in 1975. This program, unlike Dr. Lamb's, substituted impact on instruction for impact on patient care and had librarians involved only on a part-time basis, hence, a "limited" program. This paper describes the program and its evaluation by user departments.

**3:55 p.m.**

**Clinical Librarian Program in a Psychiatric Consultation Liaison Service**

Barbara Epstein, Western Psychiatric Institute, University of Pittsburgh, School of Medicine, Pittsburgh, Pennsylvania

This paper describes the clinical librarian program at Western Psychiatric Institute and Clinic (WPIC), a part of the University of Pittsburgh Health Center. The WPIC Library, a major psychiatric collection, sponsors a part-time clinical librarian attached to the Psychiatric Consultation Liaison Service. This Service, working out of WPIC, provides psychiatric consultation to the patients, families and medical and health professional staff of the University of Pittsburgh Health Center. The paper discusses the inception, functioning, staffing and cost of this unique application of the clinical librarian concept.

**4:10 p.m.**

**A Modified Clinical Medical Librarian Program for the Small Community Hospital**

Sandra Clevesy, Framingham Union Hospital, Framingham, Massachusetts

Providing clinical medical librarian services to one department in a small community teaching hospital with only one professional librarian would be difficult to justify because of the disproportionate time committed to the informational needs of a small select group. A modified approach combining CML with LATCH provides problem-oriented information to a much wider potential user group than the customary CML delivery method and increases the efficiency of the program by creating a file of current bibliographies for reference and information packets which can be reused. Instead of making bedside rounds with a clinical team, the librarian attends morning report, where new admissions are discussed and information needs identified. An evaluation of the program indicates high user satisfaction. A time study has determined that an average of 2.8 hours per day are required for the program.

**4:25 p.m.**

**Satellite Learning Resources Centers and the Clinical Medical Librarian**

Gerri G. Lawrence, Shell Oil Co., Houston, Texas

The CML program at the University of Missouri-Kansas City School of Medicine started a trend in which health sciences librarians have moved out of the traditional library setting and into their patrons' environment. This paper discusses another setting to be explored by the CML, the concept of small learning resource units with various resources located in the same areas where medical students and faculty have their offices and laboratories.

**Session 4: Library Instruction and Education, Management**

(Nautilus Room, Mid-Pacific Convention Center)

Moderator: Gerald Oppenheimer, University of Washington, Seattle, Washington

**3:40 p.m.**

**Teaching Library Research to Medical Students**

Audrey J. Kidder, Southern Illinois University School of Medicine Library, Springfield, Illinois

Southern Illinois University School of Medicine has taught a series of electives called Medical Library Research Techniques I and II in 1976 and 1977 as an orientation and training tool for medical students. Interest has been enthusiastic for each session of teaching, growing from one session in 1976 to ten in 1977. The first course supplies a twenty-hour one-week session that provides an orientation to research techniques, followed by an optional second week of applied research. In this second twenty-hour session, students apply their knowledge to researching questions of interest to them. Some of the teaching methods used to orient and educate medical students as applied by medical

libraries in the United States today will be discussed and specifics given on philosophy, techniques and application.

**3:55 p.m.**

**A Study of Life Sciences Library Education in Latin American Countries**

Judith Licea de Arenas and Pauline M. Vaillancourt, School of Library and Information Science, State University of New York at Albany

An analysis of the health sciences library education component of Latin American library schools was made based on a survey of 60 schools. Representative bioscience libraries were also contacted to determine the library education background of the librarians in charge.

**4:10 p.m.**

**Power and Its Relationship to the Formal and Informal Structures Within the Library Organization**

Sheila Lynn Larsen, University of Nebraska, Omaha, Nebraska; DataPhase Systems, Inc., Kansas City, Missouri

Power has long been a neglected aspect of management as has understanding the informal organization which operates within the confines of the formal organization. The effective manager must understand each entity — power, the formal structure, and the informal structure — separately in order to understand how they influence and interact with each other. This paper looks at each variable separately and then in conjunction with each other.

**Session 5: Consumer Health Information, Biomedical Information Center** (Terrace Lanai, Ocean Tower)

Moderator: Gilbert J. Clausman, New York University Medical Center Library, New York, New York

**3:40 p.m.**

**The Information Needs of Patients With Crohn's Disease**

Joanne G. Marshall, McMaster University, Hamilton, Ontario, Canada

As part of a clinical librarian's participation in an Inflammatory Bowel Clinic, a questionnaire was administered to patients with Crohn's Disease. The study population of 37 patients showed only a limited knowledge of their disease. Those respondents using patient organizations and medical libraries or books as sources of information were shown to score higher than those using other sources. Despite these general findings, the importance of taking into account individual differences in patients is stressed.

**3:55 p.m.**

**A Communications Program for Promoting Consumer Health Education Activities**

Eleanor Goodchild, Judy Furman, Joan Fierberg, Sherrill Sorrentino, Los Angeles County Harbor-UCLA Medical Center, Torrance, California

This paper describes a communications program and the various types of promotional activities that have been used to accomplish and support several objectives of the CHIPS (CONSUMER HEALTH INFORMATION PROGRAM AND SERVICES/SALUD Y BIENESTAR) Project. Specifically, the internal and external communication techniques of the Project will be described so that there will be an overview of how the Project advertises and educates its own clientele (library/institution staff and administration, project staff, project advisory board, trustees/friends groups) and that of the community (general public, other libraries/institutions, health agencies, legislators) to become aware of what the Project is trying to accomplish.

**4:10 p.m.**

**A Consumer-Oriented Family Health Collection in Canada**

M. A. Flower, Nursing Library, McGill University, Montreal, Quebec, Canada

This paper is a description of an innovative community program designed to promote health in the family, which has been developed in a relatively affluent suburban community by the School of Nursing at McGill University, with funding from Health and Welfare Canada. A health sciences librarian has developed an interdisciplinary collection to support the nurses as they work with their clients to develop a cooperative program of health education.

**4:25 p.m.**

**Building a Biomedical Information Center**

Thomas R. Kochtanek, School of Library and Information Science, University of Missouri, Columbia, Missouri

A narrative model of a specialized biomedical library focusing on the applications of technology to health care delivery systems is described. The objective of this Information Center is to provide and support a research setting in which collaborators from concerned university, governmental, and industrial entities can work together on the technological aspects of important health problems.

**Session 6: Information Services for Special User Groups**

(Mynah Room)

Moderator: Louise Darling, University of California, Los Angeles, California

**3:40 p.m.**

**Library Support of Schools of Public Health**

Michael Kronenfeld, James A. Thompson, Jennie J. Kronenfeld, University of Alabama, Birmingham, Alabama

A questionnaire was sent to the 22 accredited schools of public health to ascertain the sources of their library support and the satisfaction with this support. Because the library resources required by a public health program may be beyond the scope of the typical health sciences library, schools of public health are left with several options including: use of the health sciences

library primarily, along with an attempt to try to convince it to expand its scope to cover the materials needed; use of the university library (in addition to the health sciences library) to cover areas not under the scope of the health sciences library; or development within the school of a library independent of the health sciences library. The survey examines how the schools have dealt with these issues and their satisfaction with the current arrangements.

**3:55 p.m.**

**Continuing Education and Library Services for Physicians in Office Practices**

Bill Clintworth, University of Southern California, Los Angeles, California

A unique method of providing continuing education and individualized library services to physicians in their own office environment is described. Physicians receive packets of information from the medical literature which are specifically tailored to the needs of their own practices. The educational needs of the physician are determined after a careful analysis of his or her prescribing behavior by a review committee comprised of physicians and clinical pharmacists on the faculty at the University of Southern California. Information concerning prescribing behavior is derived from duplicate prescription forms which also list the diagnosis and other patient data.

**4:10 p.m.**

**The Birth Defects Information System**

Margaret Norman, Children's Hospital Research Foundation, Cincinnati, Ohio

The Birth Defects Information System (BDIS), developed by the National Foundation and the Massachusetts Institute of Technology became operational in June 1978. The BDIS on-line system provides the only comprehensive access to literature and research in the area of birth defects and congenital abnormalities. The data base is briefly described, with emphasis on content, structure and coverage, as compared to other bibliographic retrieval systems. A six month statistical survey was conducted with the departments of Teratology, Genetics, Pathological Embryology and Fetal Pharmacology at Children's Hospital Research Foundation to assess the system's merits and usefulness to the research community.

**Session 7: Media (Empire II)**

Moderator: Richard Lyders, Houston Academy of Medicine, Houston, Texas

**3:40 p.m.**

**Rationale and Guidelines for Evaluating Existing Media Collections**

Suzanne Grefsheim and Elaine Romberg, Baltimore College of Dental Surgery, University of Maryland, Baltimore, Maryland

The Independent Learning Center of the Baltimore College of Dental Surgery, Dental School, University of Maryland at Baltimore, was one of the first media centers whose collection was used as an integral part of the curriculum

of a health sciences educational institution. After five years of growth, a comprehensive evaluation was undertaken, with the purpose of weeding, updating and validating the collection. The rationale, determination of format, procedures followed and the results are described.

**3:55 p.m.**

**The Use of a Job Exchange to Create an Improved Media Program at an Academic Health Sciences Library**

Ellen Howard and Linda Milgrom, University of Washington, Seattle, Washington

Many health sciences facilities have audiovisual units that are quite separate from or, at best, loosely linked to their institutional libraries. This separation occurs for a number of reasons, including the administrative structure of the institution, and may require that the user with audiovisual needs pursue a multitude of possible sources to get adequate service. This paper describes how a job exchange provided a bridge between the Library and the Learning Resource Center.

**4:10 p.m.**

**The Use of Point-of-Interest Media Presentations in the Orientation of Staff and Students to Library Facilities and Services**

Fred O'Bryant, University of Virginia Medical Center, Charlottesville, Virginia

Many procedures in a library are highly standardized and are of a fairly routine nature. Furthermore, it is often the case that the staff who must implement these procedures are highly transient (e.g. student assistants), resulting in considerable time having to be spent by more permanent staff in instructing them. This paper demonstrates the advantages and limitations of point-of-interest and self-paced instructional media as a means of orienting and training library staff in procedures and policies, while at the same time reducing the amount of permanent staff time needed for repetitive training sessions. Instructional design considerations are presented along with examples of the use of different types of media and what situations are best suited to each type. The extension of these methods to instruction for patrons is also briefly considered.

**Session 8: Manuscript Preparation, Serials Evaluation, MLA Exchange (Gold II & III)**

Moderator: James E. Morgan, University of Oregon, Portland, Oregon

**3:40 p.m.**

**The Evaluation of Manuscripts in Biomedical Communication**

Susan Crawford, Ph.D., American Medical Association, Chicago, Illinois

Manuscripts submitted to the *Bulletin* of the Medical Library Association have been analyzed in order to identify some of the most common problems in preparation of a paper. The data consist of a sample of manuscripts reviewed

by the author, over a two and one-half year period, as member of the *Bulletin's* Panel of Consulting Editors. A wide range of activities are covered among the papers — socioeconomic developments which affect the profession, application of new technology, historical studies, as well as experiments or surveys which introduce new data. The findings point to a need for instructing librarians in (1) understanding the nature of "explanation" in a scientific/historical paper; (2) designing a research project and analyzing the data; (3) preparing data for display; (4) applying accepted standards in style of writing.

**3:55 p.m.**

**"Say Please!" A Study in Library Cooperation: The Medical Library Association Exchange**

Sylvia Haabala, John Kopper, Ruth J. Mann and Jack D. Key, Mayo Foundation, Rochester, Minnesota

From 1899 to the present more than 4.5 million items have been distributed through the MLA Exchange. The lasting impact on information services in medicine would be difficult either to measure or to overestimate. A recent updating of the evaluation list of Mayo's History of Medicine collection proved that a significant number of fine rare books has been acquired for the Library through the Exchange. This paper will describe briefly the development of the Exchange and document some of the contributions it has made to a large research library.

**4:10 p.m.**

**A Simple Objective Method for Determining a Cost-Beneficial Journal Collection**

Jacqueline Bastille and Carole Mankin, Massachusetts General Hospital, Boston, Massachusetts

In order to determine the content of a journal collection which is responsive to both user needs and space/dollar constraints, quantitative measures of the use of a 700-title collection have been related to space and cost requirements to develop objective criteria for a cost-beneficial collection for the Treadwell Library at the Massachusetts General Hospital, a large medical research center.

**4:25 p.m.**

**Citation Analysis: A Tool for Collection Development in a Departmental Library**

Katherine McCain and James E. Bobick, Temple University, Philadelphia, Pennsylvania

This paper describes a journal use study in a departmental library employing citation analysis of: 1) scholarly publications, 2) dissertations, and 3) written preliminary doctoral examinations by the Biology Department faculty and graduate students at Temple University from 1975 to 1977.

5:00 p.m. — 6:00 p.m.

## **COMMITTEE MEETINGS**

### **Certification Eligibility Committee**

Chairman: Pauline M. Vaillancourt

Mynah Room, Mid-Pacific Convention Center

### **Continuing Education Committee**

Chairman: E. Jean Antes

Terrace Lanai, Ocean Tower

### **Exchange Committee**

Chairman: Betsey S. Beamish

Gold Room I, Ocean Tower

### **1980 National Program Committee**

Chairman: Nina W. Matheson

Empire Room II, Ocean Tower

### **Program & Convention Committee**

Chairman: Sara Hill

Empire Room I, Ocean Tower

### **Subcommittee on Interlibrary Loan and Resource Sharing Standards and Practices**

Chairman: Michelle O'Connell

Gold Room II, Ocean Tower

### **Janet Doe Lectureship Subcommittee**

Chairman: David Bishop

Gold Room III, Ocean Tower

7:00 p.m. — 9:00 p.m.

## **SPECIAL INTEREST GROUP PROGRAMS**

### **History of Medicine**

Chairman: Lucretia McClure

Gold Room, Ocean Tower

### **Development of Oral History Programs**

Estelle Brodman, Ph.D., Washington University School of Medicine, St. Louis, Missouri

### **Oral History — A Prototype Interview**

Interviewee: Dr. Charles S. Judd, Jr., Professor of Surgery and Head of the Division of Medical History, John A. Burns School of Medicine, University of Hawaii, Honolulu, Hawaii

Interviewer: Nancy Zinn, Librarian, Special Collections, The Library, University of California, San Francisco, California

### **Medical Library Relevance Group**

Chairman: Joanne Marshall  
Empire Room II, Ocean Tower

#### **"Alternate Forms of Health Care"**

Julia J. Tsuei, M.D., School of Public Health, University of Hawaii

The need for alternative forms of health care will be discussed as well as those forms of alternative health care that are currently available. The eastern approach in medicine will be emphasized and acupuncture, one of the techniques currently in use as an alternative health care method, will be examined in depth. Slides and a film will accompany this presentation.

### **Health Sciences Audiovisuals Group**

Chairman: Bruce Ardis and Program Chairman: JoAnne Crispen  
Ti Leaf Room, Mid-Pacific Convention Center

#### **"Dialogue with a Producer"**

Robert Myers, Cal-Hawaii Productions

A short history of audiovisuals in medical education followed by a discussion on the problems faced today by both in-house production departments and commercial production houses.

A sandwich buffet will be served to those who purchased a ticket. Chairs will be provided for those registrants who want to attend the meeting, but do not want to dine.

### **Pharmacy Libraries Group**

Chairman: Bonnie Snow  
Gold Room II, Ocean Tower

#### **"BIOSIS and Drug Information Retrieval"**

Emilia Vitolo, Biosciences Information Services of Biological Abstracts

#### **"On-Line Access to Reprint Files in a Pharmaceutical Company Library"**

Hwei Wen Ng, Cutter Laboratories

### **Veterinary Medical Libraries Group**

Chairman: Katherine MacNeil  
Nautilus Room, Mid-Pacific Convention Center

#### **"Aquaculture in Hawaii From the Veterinarian's Perspective"**

James Brock, D.V.M., Department of Planning and Economic Development, Honolulu, Hawaii

*Wednesday, June 6*

7:00 a.m. — 8:30 a.m.

### **COMMITTEE MEETINGS**

**Editorial Committee for the Bulletin**

Chairman: Joan Ash

Gold Room III, Ocean Tower

**Handbook of Medical Practice: Volume I Chapter Authors**

Chairman: Louise Darling

Ti Leaf Room, Mid-Pacific Convention Center

**1981 National Program Committee**

Chairman: Frances Groen

Nautilus Room, Mid-Pacific Convention Center

**Scholarship Committee**

Chairman: Caryl L. Scheuer

Beach Club, Ocean Tower

**Status and Economic Interests of Health Science Library Personnel Committee**

Chairman: Carole Stock

Gold Room II, Ocean Tower

**Surveys and Statistics Committee**

Chairman: Diane Cole Eckels, Ph.D.

Gold Room I, Ocean Tower

**"Vital Notes" Participatory Panel**

Editor and Chairman: Spencer S. Marsh

Empire Room I, Ocean Tower

**Ad Hoc Committee on White House Conference on Library and Information Services**

Chairman: Lynn Kasner

Terrace Lanai, Ocean Tower

**Rittenhouse Award Subcommittee**

Chairman: Nancy G. Blase

Mynah Room, Mid-Pacific Convention Center

**Program and Convention Committee**

Chairman: Sara Hill

Empire Room II, Ocean Tower

8:30 a.m. — 10:00 a.m.

**General Session B — Health Sciences Libraries and Developing National Programs**

Sponsored by the MLA/NLM Liaison Committee.

Moderator: Virginia Holtz,, Middleton Health Sciences Library, University of Wisconsin, Madison.

Coral Rooms III & IV, Mid-Pacific Convention Center

As national level planning and development take place, health sciences libraries must find their place in the total picture. In this session, representatives from the American Library Association, Library of Congress National Library of Medicine, and the Medical Library Association will present their views on some key developments and on the problems and opportunities created by these developments.

Robert Wedgeworth, Executive Director, American Library Association, Chicago, Illinois

Joseph H. Howard, Assistant Librarian for Processing Services, Library of Congress

Joseph Leiter, Ph.D., Associate Director, Library Operations, National Library of Medicine, Bethesda, Maryland

Olyn K. Ruxin, Cleveland Health Science Library, Cleveland, Ohio

10:00 a.m. — 10:30 a.m.

**Coffee Break — Visit the Exhibits**

Tapestry Lounge, Mid-Pacific Convention Center

10:30 a.m. — Noon

**General Session C — White House Conference**

Moderator: Naomi C. Broering, Medical Center Librarian, Georgetown University Medical Center, Washington, D.C.

Coral Rooms III & IV, Mid-Pacific Convention Center

**Report on Plans for the White House Conference**

Joseph Becker, Commissioner, National Committee on Libraries and Information Science; President, Becker and Hayes, Inc., Los Angeles, California

The National Commission on Libraries and Information Science is the agency of the federal government responsible for planning the White House Conference on Libraries and Information Services to be held in Washington, D.C. in November 1979. The purpose of the Conference, as outlined in Public Law 93-568, is "to develop recommendations for the further improvement of the Nation's libraries and information centers and their use by the public". Mr. Becker will discuss current plans for the Conference, describe the key issues to be debated, and comment on the probable outcome.

**Medical Librarians and the White House Conference: Complacency, Concern, Commitment**

Robert M. Braude, Director, Leon S. McGoogan Library of Medicine, University of Nebraska Medical Center, Omaha, Nebraska

The evolution of a National Program for Library and Information Services has been a long and involved process. A major landmark in this evolution will be the White House Conference which will be held in September 1979. The participation of medical librarians has also been slow to evolve from an initial complacency to strong commitment. A description of this evolution and

current local and regional participation by medical librarians in White House Conference activities is reported.

### **MLA Perspective**

Lynn Kasner, Chairman, MLA Ad Hoc Committee on the White House Conference on Libraries and Information Science

The Medical Library Association established an Ad Hoc Committee on the White House Conference on Library and Information Services in July 1978 to prepare a position paper on issues of concern to Association members. The paper addresses issues such as multi-type library network development, resource sharing, and provision of information to the health care consumer. Other Committee activities include informing MLA members of White House Conference developments, organizing a reporter system in Regional Groups and developing a strong network of support for MLA involvement in White House Conference activities. Lynn Kasner will summarize the activities of the Committee, outline how the Association's position was developed and provide members with information on what actions they can take in educating delegates to the Conference on MLA concerns.

12:00 noon — 12:10 p.m.

### **Visit the Exhibits**

Tapestry Lounge, Mid-Pacific Convention Center

12:10 p.m.— 3:30 p.m.

### **SPECIAL INTEREST GROUPS**

#### **Military Medical Librarians Groups**

Chairman: Deborah Batey and Co-Chairman: Marilyn W. Schwartz  
Naval Submarine Training Center, Pearl Harbor, Hawaii  
Bus Departs: Kalia Road 12:10 promptly. Lunch will be provided.

#### **Hyberbaric Chamber Adjunctive Medicine**

Lt. Emory L. Bishop, Director, Diving Training Department, Naval Submarine Training Center Pacific, Pearl Harbor, Hawaii

A field trip to Pearl Harbor Naval Base to hear a lecture by Lt. Emory Bishop on the history of submarine escape, diving accidents and their treatment, hyperbaric adjunctive medicine and a tour of the hyperbaric chamber. This promises to be a fascinating expedition and it is open to all registrants.

1:00 p.m. — 3:00 p.m.

### **SPECIAL INTEREST GROUPS**

#### **Medical School Library Group**

Chairman: Peter Stangl  
The Long House

### **The Relationships Between the Library, Media Production and Instructional Development in the Academic Health Science Center**

Moderator: David A. Kronick, Ph.D., Library Director, University of Texas Health Science Center, San Antonio, Texas

Reba Benschofer, Ph.D., Director of Biomedical Communications, University of Nebraska Medical Center, Omaha, Nebraska

James E. Waldron, Ph.D., Director of Educational Resources, University of Texas Health Science Center at San Antonio, San Antonio, Texas

Jane Port, Associate Library Director, The Mount Sinai Medical Center

Erich Meyerhoff, Library Director, Cornell University Medical College.

The panel will address itself to the kinds of relationships in terms of administration, service and space that exist and can exist between these units and the advantages and disadvantages that may accrue to each of them in these various relationships. General participation from the audience will be encouraged.

### **Medical Society Libraries Group**

Chairman: Joseph E. Jensen

Nautilus Room, Mid-Pacific Convention Center

### **The Medical Society Library: A Socio-Historical Perspective**

Susan Crawford, Ph.D.: "An Historical View from Four Surveys"

Robert Cheshire and Lydia Holian: "Networks and Society Libraries"

Jacqueline Picciano: "The Society Library as Special Library – New Roles"

Ann Weller: "Outreach Programs – National Health Service Corps and Indian Health Service"

Historically, medical society libraries have provided an informal network of research and document delivery services. With development of a federally-funded Regional Medical System, many society libraries, especially those of local organizations, have amalgamated with other institutions or evolved new goals. This panel discusses the resurgence of society libraries, their new programs, and direction of development.

### **Mental Health Libraries Group**

Chairman: Barbara A. Epstein, Western Psychiatric Institute and Clinic, Pittsburgh, Pennsylvania

Mynah Room, Mid-Pacific Convention Center

### **Perspectives on the Mental Health Library in the Institutional Setting**

Kineret Lichtenstein, Illinois State Psychiatric Institute, Chicago, Illinois

Toby Port, St. Elizabeth Hospital, Washington, D.C.

Edwarda Adams, Langley Porter Neuropsychiatric Institute, San Francisco, California

Librarians from three diverse settings will discuss types of users and services in their libraries, and the problems and special implications of serving that user population. Issues to be addressed include the impact of consortia on mental health libraries, administration of patient and professional libraries, and computerized data base searching.

### **Nursing Librarians**

Rosemary Buhr, Chairman

Ti Leaf Room, Mid-Pacific Convention Center

### **Continuing Education in Nursing — The Role of the Library**

Speakers will include Margaret Moore Ovitsky, Librarian, New York State Nurses Association.

3:00 p.m. — 3:30 p.m.

### **Break — Visit the Exhibits**

Tapestry Lounge, Mid-Pacific Convention Center

3:30 p.m. — 5:00 p.m.

### **FOCUS GROUPS**

The purpose of these discussion groups is to allow members to share their experiences with one another, define problems, evaluate solutions, and establish contact with colleagues who have interests similar to their own. Group leaders have the following responsibilities: To start discussions by outlining the major issues or controversial aspects of a topic; to manage the discussions so that all who wish to contribute ideas have a fair opportunity to do so; to summarize for the group the issues addressed, the problems raised, and solutions suggested. In order to participate in a focus group effectively you should plan to stay with one topic for the full time period rather than trying to drop in on many.

### **AACR2 and Its Impact**

James E. Raper, Jr., Medical Library Center, New York

Donald L. Potts, Medical Library Center, New York

Brett A. Kirkpatrick, New York Academy of Medicine, New York

Gold Room I, Ocean Tower

### **AHECs (Area Health Education Centers)**

Linda Butson, Mountain AHEC

Patty Powell, Fayetteville, AHEC

Coral Room II, Mid-Pacific Convention Center

### **Bibliographic Control of Audiovisuals**

Malcolm Brantz, University of Connecticut Health Center, Farmington, Connecticut

Nautilus Room, Mid-Pacific Convention Center

**East Meets West: Comparative Medical Librarianship**

(Empire I & II)

Sponsored by the International Cooperation Committee

Moderator: C. K. Huang, Director, Health Sciences Library, State University of New York, Buffalo, New York

**Education for Medical Librarianship: United Kingdom and Scandinavia**

Patricia McHugh, Senior Lecturer, School of Library and Information Studies, Easling College of Higher Education, London, United Kingdom

The U.K., Norway, Sweden, Finland and Denmark have developed advanced systems of Health Care, but there is no common model for library services in the field. The paper will briefly describe the pattern of medical libraries in these countries. The factors influencing existing provision of specialist education in medical librarianship will be examined. Current planning for future educational programmes will be outlined, and areas that would benefit from increased cooperation identified.

#### **Health Literature Services in Nigeria – Its Scope and Potentials in World's Biomedical Communication**

S. O. Oyesola, Ph.D., Senior Librarian, College of Medicine, University of Lagos, Nigeria

The developing nations are too information starved and poverty stricken in library services not to adopt some of the strategies employed in developed nations (U.K. and U.S.A.). Health literature provision should assume international scope as do all other health programs, e.g. medical education, medical practice, public health, traditional medicine, etc. The role a new professional association for the Health Sciences Library and Information Services should play and is playing in Nigeria is to bring the world's biomedical literature services in reach of any user in the remotest part of the country. Its potential cooperation in West Africa, consists of WHO (African Region) and the O.A.U. through the West African Health Secretariat in Lagos. The new approach of solving health care problems in a rural – industrial – haste-prone country like Nigeria by the provision of the Basic Health Scheme with emphasis on Primary Health Care can serve as a new approach to solve old problems, e.g. Network Service – Document delivery service. The influence of international cooperation and understanding in bibliographical control is examined. Bilateral relations among individual countries and nations should be encouraged. The less developed nations including Nigeria have gaps to fill to make comprehensive bibliographical control in library and information science a reality.

#### **Development of Medical Library Service in Malaysia**

Miskiah Ahmad, Head Medical Branch Library, The National University of Malaysia, Kuala Lumpur, Malaysia

Describes the development of the three major medical libraries in the country. The Institute of Medical Research Library which grew with the establishment of the Institute in 1900 under the British colonial government, the University of Malaya Medical Center Library which started as an offshoot of the University of Malaya Medical Faculty in Singapore, and lastly the Medical Branch Library of the National University of Malaysia. The problems encountered in providing an efficient medical information system in the country is discussed. Problems general to the region arising from its location as well as specific problems faced by the three libraries in their effort to serve the medical community in the country. Services offered and projects undertaken by the libraries in their effort towards improving medical library service will also be

described. This includes projects sponsored or assisted by International organizations like WHO, UNESCO, SEAMIC, SEAMEO, etc.

### **Improved Health Literature Services in Developing Countries — The Human Resources**

Beryl Ruff and Annette Brehmer, Technical Officers, Library and Health Literature Services, World Health Organization, Geneva, Switzerland

In developed countries health personnel enjoy easy access to abundant library resources and services; they can readily acquire personal collections of books and periodicals and other reference tools and have trained personnel assist them in handling information needs. The situation in developing countries is well known. Lack of books, journals and trained library staff, poor communications and a host of other problems face the librarians. Human resources are as vital to the development of adequate health literature services as material resources. A confident, knowledgeable, dynamic librarian, encouraged by professional cooperation, can build up services from modest material resources, can train and motivate technicians and can gain and maintain the sympathy and needed support of senior administrators. In offering help to the developing countries there should be a recognition of the importance of this human resource so that a balanced approach can be used rather than concentrating efforts on building up material resources. Health librarians in the industrialized nations should make a point of better understanding the problems of their less fortunate colleagues and develop appropriate ways of assisting in the problem solving that will improve the human resources of the developing countries.

### **Publisher/Vendor/Librarian Forum (Coral IV)**

Sponsored by the Bibliographic and Information Assessment Committee  
Moderator: Gary D. Byrd, Chief Medical Librarian, UMKC Medical Library, Kansas City

### **Health Sciences Journal Concerns — An Agency Perspective**

Frank F. Clasquin, Executive Vice President, F. W. Faxon Co., Westwood, Massachusetts

The bibliographic, price, and marketing data collected in the course of subscription agency business is a yet untapped resource of useful information for the control of scientific and technical journals upon which the Health Sciences field depends as the most current and widespread mode of information transfer.

Various aspects of some of this agency information such as costs in relation to use, market definition, selection patterns, budgeting methods, and limitations of agency knowledge of editorial content, will be expanded upon in the course of this forum.

### **Improving Communication Between Librarians and Booksellers: The Bookseller's Perspective**

Dimity S. Berkner, Vice President, Taylor Carlisle, New York, New York

How changes in book selection priorities, budget restrictions, and automated systems impact the relationship between librarians and vendors, and how these changes can be directed to benefit the library. Included are suggestions on priorities in choosing whether and how to use an approval plan, some capabilities needed in an automated ordering system, and current trends toward standardization of ordering, reporting and invoicing.

### **Publisher: Professional or Profiteer?**

William A. Snyder, Director of Marketing, Elsevier/North Holland, New York, New York

The general economics involved in publishing journals and monographs will be discussed. Costs involved and the publishers' anticipated returns will be analyzed in the acquisition, production, marketing and distribution of journals and monographs. From the publishers perspective, suggestions will be offered for improvements in current systems for dissemination of information to end users. How publishers view the librarians "decision to acquire" process and how they view the vendor's role in this process will be discussed.

### **Improving Economic Effectiveness in Acquisitions: The Librarian's Viewpoint**

Daniel T. Richards, Head of Acquisition, Biomedical Library, UCLA Center for the Health Sciences, Los Angeles, California

An increasing variety of services offered by book and serial vendors, the ever expanding medical publishing industry, and changing fiscal climates affecting health care institutions combine to require a more rigorous approach to the purchase of materials in health science libraries. The medical librarian as institutional consumer must be fully aware of how these and other changes can alter library buying patterns and should use that knowledge to best advantage in monitoring ongoing activity or initiating new arrangements. Several factors over which the librarian has considerable control can influence the economic effectiveness of an acquisitions program. This paper explores four areas from that control vantage point: (1) the relationship between the library and its vendors; (2) the evaluation of vendor performance; (3) the use of vendor and publisher approval plans; and (4) two pricing concerns — differential pricing of journals and the prices of imported books. Discussion of each topic is amplified with specific examples. Methods for assessment of current practices in order to maximize greater economic control are outlined.

### **NLM/CLR Health Sciences Library Management Intern Program (The Long House)**

Moderator: Frances E. Johnson, Project Officer, National Library of Medicine, Bethesda, Maryland

The Health Sciences Library Management Intern Program was established to meet the need to prepare librarians to become directors of academic health science libraries. This program is funded by the National Library of Medicine and administered by the Council on Library Resources. The first year of the program is funding three individuals to intern with three health science library directors. The program's overall objective will be discussed by the moderator; individual experiences will be relayed by the Interns and Host Directors. The discussion will include their observations on the various strategies available for the development of managerial skills, including the role of formal education and the mentor-intern relationship.

**Library Directors:**

Samuel Hitt, University of North Carolina

Nancy Lorenzi, University of Cincinnati

Glenn Brudvig, University of Minnesota.

**Management Interns:**

William Maina, University of North Carolina

Carol C. Jenkins, University of Cincinnati

Faith Meakin, University of Minnesota.
